TAKE A PRO-ACTIVE STANCE & LET US HELP YOU ATTAIN ZERO INCIDENTS THIS YEAR.

ENVIRONMENTAL & SAFETY CONSULTING

At Comtech, we don't look at safety as a requirement, we look at it as a way of life. We challenge our team members to live by this core value. We believe in continuously educating our team on best practices & provide opportunities for leaarning, mentoring and support.

Do it safely or not at all. There is always time to complete a job the right way.

IN-HOUSE EHS EXPERTS

Our EHS team has extensive experience in the area of environmental, health and safety management, offering support to multiple organizations over the years. Our expertise does not come from being EHS consultants, it comes from implementing successful, tangible and functional programs to manage our own EHS responsibilities year after year. We can do the same for you.

FLEXIBILITY AT A REASONABLE COST

We will work with you to set up a safety compliance support agenda for your team to track and follow throughout the year. It is completely customizable to fit your company's requirements, all on your time and at a reasonable cost.

ISNetworld COMPLIANT

Keep your company up to date on the latest rules and regulations governing your operations.
